

Capital Product Partners receives Marine Money Award “Deal of the Year”

June 19, 2024

Capital Product Partners is delighted to announce that it has been honored with the award for Equity Follow – “On Deal of the Year” at this year’s Marine Money award ceremony. This recognition is attributed to the conversive transaction announced in November 2023 with an equity rights issue to finance the purchase of 11 latest technology LNG/C vessels. This initiated the process of the company’s strategic pivot from containers to LNG, Gas transportation and energy transition vessels.

Matt McCleering, President of Marine Money stated:

"In capital intensive, volatile business such as shipping and offshore, financial transactions have the potential to be transformative to companies and life changing to stakeholders"

"That's what makes maritime dealmaking so unbelievably exciting. It is also why we are so thrilled to recognize the craft and creativity of the shipping deal. Congratulations to all the professionals who work tirelessly, and overcame considerable challenges, to get these deals done".
