

18th Annual Capital Link International Shipping Forum | 1X1 Discussion

March 20, 2024

"Building An Industry Bellwether Energy Transition Shipping Company"

2

CEO of Capital Product Partners, Mr. Jerry Kalogiratos, during his participation in the 18th Annual Capital Link International Shipping Forum highlighted CPLP's strategic transformation from a product tanker-focused MLP to a diversified fleet, including LNG carriers, liquid CO₂ carriers, and ammonia carriers.

The transition to a C-Corporation reflects its alignment with evolving market demands and its focus on becoming a leading shipping provider for the energy transition. Supporting industries like LNG, carbon capture, and green hydrogen, CPLP is determined to capitalize on future growth opportunities in emerging markets such as liquid CO₂ transportation and ammonia shipping.
